

WEBINAR FOR THE LAUNCH OF THE NEW POCKET GUIDE TO NDCs

NATIONALLY DETERMINED CONTRIBUTIONS: EXPERIENCES IN UPDATING AND REVISION

06.10.2020 • 11:00 - 12:15 GMT

Many countries are currently in the process of revising their intended NDCs, which were initially submitted before the Paris Agreement was adopted. The revised NDCs were to be submitted, and implementation was to begin, this year. In the webinar, we will explore national experiences with the process of formulating and revising their NDCs, and the extent to which countries are realistically able to plan their short and medium-term responses to climate change through the NDC process. We will also present an overview of where countries stand with regard to the revision process, and with initiating implementation, particularly given the potential delays caused by the COVID-19 pandemic this year.

UNEP DTU Partnership and the European Capacity Building Initiative (ecbi) recently produced a Pocket Guide to NDCs. The Guide explains the provisions of the Paris Agreement adopted in 2015, and of the Katowice rulebook adopted in 2018.
